## OVERVIEW

I am a 3<sup>rd</sup> year Computer Science and Engineering undergraduate student from VIT, Chennai. I have a strong knowledge of Data Structures and Algorithm, C++ and am familiar with Full Stack Web Development. As a person, I am dedicated, hardworking and have keen interest in cutting edge technology.

## EDUCATION

- **Vellore Institute of Technology , Chennai**  
*Bachelor of Technology - Computer Science & Engineering*  
CGPA: 8.98  
Chennai ,India  
2021 – 2025
- **Narayana Junior College**  
*Higher Secondary*  
Percentage: 96.4%  
Tirupati ,India  
2021
- **Indus Montessori**  
*SSC*  
GPA: 10  
Kurnool ,India  
2019

## SKILLS SUMMARY

|                                 |   |
|---------------------------------|---|
| <b>Programming Languages</b>    | C++, C, Java , Javascript , Python,               |
| <b>Frontend Technologies</b>    | ReactJS, Redux, HTML, CSS, Bootstrap , JavaScript |
| <b>Backend Technologies</b>     | NodeJS, ExpressJS, MongoDB                        |
| <b>Other Tools/Technologies</b> | Postman   |

## ACHIEVEMENTS

- ✓ **Ethnus Full Stack Web Development** Certificate  
Built a team project named Online voting app using MERN stack technology
- ✓ **Google Cloud Computing Foundation** Certificate
- ✓ **Spoken Tutorial Project at IIT Bombay** Certificate  
Certificate for Completion of C Training

## EXPERIENCE

- Ethnus:** Industrial Internship  
*MERN Full Stack Web Development* AUG 2023 – DEC 2023
- Completed an industrial internship at Ethnus , gaining hands-on experience in skills , tasks and Projects
  - Led a collaborative team effort to develop an online voting app, showcasing strong project management skills and deepening knowledge in full-stack development using the MERN stack.
  - **Technologies Used:** ExpressJS, ReactJS, MongoDB, JavaScript , CSS , other frontend frameworks etc.

## PROJECTS

- **Ecommerce Website:** Made a fully Responsive Ecommerce website named **Ecart** with features seamless **Stripe payment integration** and includes an admin panel for efficient management of products, orders, and Users.  
**Tech used:** MongoDB , React JS ,Cloudinary , ExpressJS , NodeJS , Stripe Payment , Material UI , Redux , other frontend frameworks — [GitHubLink](#)
- **Online Voting App:** Developed an innovative **Team Project** , Online voting application assigned by **Ethnus** using the MERN Stack . This website features an integrated admin panel for seamless project administration.  
**Tech used:** MongoDB , React JS , — [GitHubLink](#)
- **MyNotebook:** Built a MERN-based myNotebook app enabling users to effortlessly (**CRUD**) create , edit ,delete , add and organize notes with MongoDB, ExpressJS , React JS, Node js.  
**Tech used:** Express JS , React JS , MongoDB , Node JS , FontAwesome , etc — [DemoLink](#), [GitHubLink](#)
- **NewsReader:** Crafted a dynamic news reader application using React JS. Displays the real-time news content through integration with News API. Showcased proficiency in frontend development and API utilization.  
**Tech used:** ReactJS, News API , Bootstrap — [GitHubLink](#)
- **Tic-Tac-Toe:** Built a fun and interactive tic-tac-toe game using Javascript  
**Tech used:** HTML , CSS , JAVASCRIPT — [DemoLink](#), [GitHubLink](#)
